

PRESS RELEASE

The University of Yaoundé II opens the doors to excellence: Three elite master's programs open at the University of Yaoundé II.

The University of Yaoundé II, through its prestigious Economic Policy Management (EPM) Training Program, is informing the public of the simultaneous opening of three major calls for applications for the 2025-2026 academic year. These programs of excellence, sponsored by the **Government of Cameroon** and benefiting from a strategic partnership with the **World Bank**, aim to train a new generation of high-level African decision-makers and experts.

GPE Excellence at the service of African Development

The Economic Policy Management Training Program (GPE) is a benchmark initiative dedicated to **strengthening the capacity for analysis and management of public policies** in Central Africa and the Great Lakes region. The training, provided by national and international professionals and teacher-researchers, is delivered in a hybrid format, combining online and face-to-face teaching. It is open to executives from countries in the Central African sub-region and the Great Lakes region.

Three programs for specific profiles

To meet the continent's diverse needs in terms of governance and data analysis, the GPE offers three distinct tracks:

Programme	Promotion	Places	Target audience / Prerequisites
Masters in Data, Economics and Development Policy (MDEDP)	4th	30	Holders of a Bachelor's degree (Bac+3) in economics, management, statistics, computer science, or related fields.
Professional Master's Degree EPM Level 1	1st	40	Holders of a Bachelor's degree (Bac+3) in any field, with at least one year of experience in the development or evaluation of public policy.
Professional Master's Degree EPM Level 2	23rd	40	Holders of a Master's degree (4 years of higher education) in economics or management, with at least two years' experience in the development or evaluation of public policy.

Unique opportunities for professional integration

These programs offer strategic opportunities for skills development, professional integration, and career development. The MDEDP Master's degree, dedicated to data science applied to development, includes internships supervised and facilitated by GPE, particularly through its partnership with the World Bank. In addition, the major of the 23rd class of the GPE Professional Master's Degree (Level 2) will benefit from a professional stay abroad, allowing them to gain high-level international experience.
